# TASK FORCE RED DEPLOYMENT DRILL

ALL HAZARDS DEPLOYMENT  
IN RESPONSE TO F5 TORNADO

The purpose of today's Task Force drill was to evaluate the deployment activation processes and procedures. This also allowed us the opportunity to test our readiness and efficiency. Today's response was based off of an All-Hazards response request. During our post-drill analysis, we did not discover any major flaws in our system; however, we addressed some minor details to streamline our process. The Task Force will continue to communicate, meet and train on a regular basis to maintain our readiness.

# TASK FORCE RED DEPLOYMENT DRILL

ALL HAZARDS DEPLOYMENT  
IN RESPONSE TO F5 TORNADO

## CHECK IN PROCEDURES

- Practiced check-in procedures
- Completed all necessary paperwork—TIFMAS / ICS Forms
- Reviewed the importance of accurate and detailed reporting

## RESPONSE TIME GOALS

- From activation to rendezvous point = 2 1/2 hours
- Task Force Goal is 2 hour response—identified various things that could decrease response time

## COMMUNICATIONS

- Tested interoperability gateway communication systems
- Our communication plan was successful

## FORCE PROTECTION

- Discussed importance of Force Protection—plan development

## DISCUSSION & REVIEW OF ORGANIZATION / STRUCTURE

- Reviewed various roles and responsibilities within the Task Force
- Developed a convoy strategy
- Discussed importance of interaction / future training
